

REPORTS OF HERRERA'S REVOLT CONFLICTING

GENERAL BELL CONFIRMS ACCOUNT OF DESEPTION OF CARRANZISTAS

Messages from El Paso Quote Gen. Gaviro and Consul Garcia in Denial of Story—Funston Anxiously Awaits Result of Probe Begun By State Department Thru Consular Representatives.

BULLETIN.

EL PASO, Tex., March 23.—Mexican Consul Garcia announced tonight he had received a telegram from General Bertani that Villa was surrounded at El Oso, five miles south of Namiquipa, by American and Mexican troops and that a decisive battle was imminent.

Bertani's message said the American troops came up following the defeat of Villa earlier in the day by the Carranza forces at Santa Gertrudes.

SAN ANTONIO, Texas, Mar. 23.—With a message from Brigadier General George Bell, Jr., before him confirming his report of yesterday that General Luis Herrera had revolted with 2,000 men in Chihuahua, and a collection of evidence at hand from unofficial sources, denying the alleged revolt, General Funston was as puzzled tonight as to the exact status of affairs in Mexico as he was this morning.

General Bell was the first to inform General Funston that Herrera was reported to have joined Villa in his fight against the United States. General Funston instructed him to investigate the report and inform him of developments. The laconic message late today that he had confirmed his report of yesterday, was General Bell's reply. He did not report additional facts concerning the new movement and did not tell how the report was confirmed.

To offset General Bell's statement messages from El Paso quoted General Gaviro and Consul Andres Garcia in denial, the consul at Laredo submitted a denial and Samuel Belden, counsel here for Carranza, made public a message he said he had received from General Herrera in Chihuahua, dated today. In this message General Herrera denied that he had revolted adding that on the contrary he was "ready to fight Villa as energetically as possible."

General Funston transmitted to the war department the message from General Bell and anxiously awaited the result of the investigation the state department had begun thru its consular representatives in Chihuahua, Torreon and Durango.

Nor was General Funston's knowledge of the progress of General Pershing's column increased. The day passed without a report from General Pershing making this the fourth day General Funston has been ignorant of developments south of Casas Grandes. He sent General Pershing instructions today to send more complete information regarding developments and another message warning him of the reported activities of General Herrera.

Receipt of his communication was acknowledged at Casas Grandes, but late today no report had been received.

Telegrams from Chihuahua including one from General Herrera and given him by Consul Andres Garcia, were forwarded to General Funston tonight by General Bell. The study of this evidence caused General Funston to have a greater doubt of the truth of the story of Herrera's revolt.

States Villa Holds up Train.

El Paso, Mar. 3.—Garcia Flores, a Spanish merchant of the City of Chihuahua, who arrived here tonight said that Villa had held up a train on which he was traveling at Mochizuma, 85 miles northeast from Namiquipa, where the Carranza authorities have insisted the bandit chief was located. Flores is well known in business circles in El Paso.

"We were travelling north from Chihuahua City," he said, "and were nearing Mochizuma on Wednesday afternoon when we encountered a large force of men, mounted and on foot, surrounding the station. According to my best estimate there must have been 1,500 in all.

"When we reached the station we were amazed to see Villa himself enter the train. We had supposed he was many miles to the west. He walked thru every carriage declaring that he was searching for Americans and that he would kill any he found. 'I am not fighting Mexicans,' he announced, 'except the first chief and those traitors with him who have turned Mexico over to the Americans.'

HAY ARMY INCREASE BILL PASSES HOUSE

MEASURE GOES TO SENATE FOR IMMEDIATE CONSIDERATION

Only Two Votes are Cast Against Bill—Is First of the Great National Preparedness Measures Urged by Wilson to Pass Either House.

Washington, Mar. 23.—The Hay army increase bill, providing for a regular army peace strength of 140,000 fighting men, instead of the present 100,000, passed the house late today by a vote of 402 to 2.

It goes to the senate for immediate consideration virtually as drafted by the house committee. The negative votes were cast by Representatives Britten, Republican of Illinois and London, Socialist, of New York.

Mr. Britten opposed the bill because he favored a still further increase in the army and Mr. London because he favored no increase.

The bill is the first of the great national preparedness measures urged by President Wilson to pass either house, although various related measures have been approved.

During the debate Chairman Hay of the committee which drew the bill referred to it as "the president's own bill."

It was explained, at the white house however, that while the president approved the ground plan of the measure, he was not committed to its details. The conference on the senate and house plans to come after the senate acts is expected by administration officials to produce a bill which will have the president's full support.

The measure went to the senate tonight, and the way has been cleared for consideration of it to begin there next Monday.

Besides providing for 140,000 enlisted men as the peace strength of the standing army, exclusive of officers, hospital and quartermasters corps and unassigned recruits, the bill as passed by the house, provides for the building of a force of 425,000 federalized national guardsmen within five years. It provides for an officers' reserve corps of 50,000, for a complete industrial reserve and for new recruiting systems for both the regular army and the national guard. It also contains an authorization for summer training camps, from which a third force of federal volunteers is expected to grow and provide the national guardsmen who will receive the benefits of the pay feature of the bill, shall be subject to immediate draft into the federal army in war time.

General P. Elias Calles, military governor of Sonora, stated, however, that no troops had arrived; that on the other hand 250 of the 500 men stationed there had been sent to Culbulla, 18 miles south today.

It is currently reported that the American troops are under orders to make no move, which would serve to indicate to the de facto forces that the slightest apprehension is felt here.

This would explain the peculiar troop disposition in the city. Only a small provost guard patrols the streets, as in ordinary times. However, the smelters, city water plant and other public utilities are guarded by infantry detachments. Camp Harry J. Jones, in which the American soldiers are quartered about a mile east of the city is not entrenched.

Calles Denies Report.

A current report credited by many local people says that General Calles is assembling a large force at Culbulla. Calles denies this in a statement today. He said that Culbulla is merely a small camp and not a concentration point. He declared that there were no more than 800 men there at present.

General Calles also said that Brigadier General Arnulfo Gomez, his second in command, is enroute from Hermosillo to Mochizuma with four thousand men to reinforce the troops along the Sonora-Chihuahua border guarding against a possible western movement of Villa.

Sixty thousand rounds of ammunition for General Calles arrived here by express today. It probably will not be sent across to Agua Prieta for delivery until tomorrow.

The feeling of apprehension in Douglas was made evident late today. A number of telegrams addressed to Senators Henry F. Ashurst and Marcus A. Smith and congressman Carl Hayden were sent by prominent local men, urging that the war department officials be interviewed at once, and with a view to obtaining an adequate border patrol.

Ask for Immediate Reports.

Washington, March 23.—Tension in administration quarters over the Mexican situation relaxed today in the absence of official confirmation of the report that 2,000 Carranza troops at Chihuahua under Luis Herrera had joined Villa. Conflicting unofficial advices from the border, however, caused the state department to telegraph American consuls at Chihuahua and Durango for immediate reports as to the situation in the Torreon region where Herrera was last reported.

Secretary Baker's reports on the day's events on the border were before President Wilson when the latter returned tonight from a day's trip to Philadelphia. They were of a reassuring nature, although they contained nothing positive as to the reported revolt.

The accumulation of denials of the Herrera during the day; the safe arrival of the army motor trucks with the expeditionary

train. He told them that General Herrera had joined him three days since with 3,000 men, fully equipped and armed, who had followed him from Chihuahua City. He finally left the train without molesting anyone but he took some supplies which he said he needed badly."

Mr. Flores said that the wires between Chihuahua and Torreon were cut three days ago and that the people throughout the country he traversed knew very little of what was going on.

Consul Garcia made public tonight a telegram which he said he had received from General Gaviro announcing that the Carranza forces had defeated Villa today at Santa Gertrudes, near Namiquipa. According to the announcement, Villa, after leaving several dead and wounded on the field, abandoned 100 horses and fled to El Oso.

Reports Arouse Apprehension.

Douglas, Ariz., Mar. 23.—Reports that approximately two thousand de facto Mexican troops had been seen by United States soldier observers, marching into Agua Prieta today from the southeast, coupled with apparent verification from usually reliable sources in the Mexican town served to arouse much apprehension here today.

General P. Elias Calles, military governor of Sonora, stated, however, that no troops had arrived; that on the other hand 250 of the 500 men stationed there had been sent to Culbulla, 18 miles south today.

For Governor

ANDREW RUSSELL.

"Who hired Attorney Stevens?" doesn't have that hollow echoing sound it once did.

"What's in a name?" Harry M. Duck has just been appointed a deputy game warden in Missouri. Duck's home is in Crescent, a town which is said to be in the midst of the game buying section of the state and so this appointee is by environment, name and training fitted for the duties of the office he has just undertaken.

Carranza Currency.

The American government's recognition of Carranza has not seemed to seriously impress Americans along the border. If one may judge from the value placed in San Antonio upon a Carranza dollar. The highest price paid even after recognition of the de facto government was 10 cents and now the figures have fallen to 2 cents. At the present rate Carranza currency will not long have value greater than the paper on which it is printed.

To a few citizens fell the somewhat unpleasant but patriotic duty of instituting the proceedings which have brought lower rates for local consumers of gas and electricity. Dr. Bove, Dr. Baker, Mayor Rodgers, John J. Reeve and some members of the former city council are among those who took an active part in securing the commission investigation. Their action will mean the saving of many thousand dollars annually for the people of Jacksonville.

Zueblin's Way.

Professor Charles Zueblin of Boston, famous as publicist, economist and sociologist, formerly connected with the Chicago university, is now in the central west making addresses. One of his themes is "The Soul of the City," another, "The United States—Pace Maker or Peace Maker," and other kindred subjects are discussed. Professor Zueblin has done some investigating work worth while and his lectures have much in them of value. But one wonders why he always thinks it necessary to bring in some statement or other referring to blue laws that have made Sunday a day of gloom, or some reference to sacred hymns, terming them mere doggerel. Surely his work as an economist and sociologist would be just as effective

ALWAYS SOMETHING

It's hard to save for the rainy day; there's always something for which to pay; there's always something demanding coin; we have to pay for the tenderloin, for the grocer's prunes and the baker's bread, new pillows for the guest-room bed, for a hat for Jane and a shoe for Jake, for seeds and bulbs and a garden rake! We must subscribe for some magazine, and the house needs paint and the window screens, and we need some save for the springtime corn, and the cow requires a new set of horns, we must hire a man who can prune the trees, and make some stalls for the bumblebees, and haul away all this winter's trash—there's always something demanding cash! A man must study and engineer, who'd save ten cents in a passing year, who'd have a bone for the rainy day, as a rod and staff when he's old and gray, to buy a shroud when the journey's done—there's always something demanding coin!

A Difference in Words.

It is not surprising that even the president of the United States in making a public address sometimes uses language which does not exactly express his intent. This was true of President Wilson, who in making a recent speech in St. Louis, declared that this country "should have it by the greatest navy in the world." The edited report of the president's speech, which is being used as a campaign document by the anti-preparedness committee, is reworded to read not the greatest navy in the world but, "the most adequate." There is quite a difference in these two statements and again we say it is not surprising that a public speaker sometimes uses language that does not exactly express his thought. It is not surprising, either, that President Wilson has changed the language just as he has his position in a number of notable instances recently.

Mexico as Sherman Sees It.

Senator Sherman sees the Mexican situation as it is, and his resolution to authorize and direct the president to at once call for 50,000 volunteers for service in Mexico is proof of his belief in the serious situation across the border. The senator voiced these timely and patriotic words:

"I wish to warn those in authority in the executive department that we are trifling with the lives of men, with the safety of our border states and with our national honor more than some seem to appreciate. If it be neglected, the delay in a crisis will be a blunder, and the kind of blunder that is worse than a crime. The best method of redeeming ourselves from disaster is to be prepared before the disaster arrives. This is the purpose of this resolution."

Davis as a Pioneer.

That the courts and investigating bodies in these United States grind like the mills of the Gods—very slowly—is proven by the report from Washington of the committee on elections which has just decided in favor of Congressman at Large Elza Williams of this district, whose seat in the house was contested by McCann Davis. The election occurred in 1914 and here it is practically two years afterward, with the term to expire a few months hence, and the finding has just been made. Nothing daunted, Mr. Davis has let it be known that he expects to be a candidate for the same position in November.

McCann Davis has not been successful in everything he has undertaken, but he blazed the way in Illinois in political newspaper advertising. When he became a candidate for election as clerk of the Illinois supreme court his picture appeared a number of times in practically every paper in the state of Illinois, and in a few months' time from a man comparatively unknown, his name and face became familiar to voters from one end of the state to the other. As a result he was nominated by a large majority, tho at the beginning his candidacy was not looked upon with seriousness by many politicians.

Railroad Expense.

Because of the demand for an eight hour basic day by the four brotherhoods in train service, some vast expenditures for overtime confront the big railroad systems. Experts for the Baltimore & Ohio road state that if the demands of the train men are granted, the railroads instead of paying the overtime charges might relocate the terminals. Such changes would involve enormous expenditures, but some of the railroad men figure that such expenditures would be less than would be occasioned by granting the proposed increases and using the terminals at present. Terminal changes could be made which would greatly reduce the amount of possible overtime charges.

The public in general believes that the railroads have been dealt some pretty hard blows in recent years and have been regulated in a number of instances to such an extent that they have not been able to operate at a profit. Yet the railroad managers do strange things from a public standpoint. For example, millions are invested in terminal facilities which are built of a size and proportion far beyond present day traffic, with the idea that the facilities must be large enough to meet demands a decade or two hence. By this plan the people now are paying the expenses of the future. The millions spent for beautiful union stations must be paid for by the patrons of the roads, and private citizens who do not understand by any means all the details of railroad management often wonder if it would not be better to have less beautiful terminal surroundings while the railroads are declaring that their incomes are growing less and their expenses growing more.

Rate Case Finding Should Bring Period of Prosperity.

The public generally will be greatly gratified by the fact that the state utility commission has made a finding in the Jacksonville rate case. There will be general satisfaction that rates for gas and electricity have been lowered, but this gratification over lower rates will not be much less than over the fact that an end of hearings has come and that the likelihood of litigation is remote.

For nearly two years the question has been before the utility commission, and the finding is based upon an exhaustive investigation made by experts for the commission. Uncertainty as to what the commission would find and when the decision would be given have

served to unsettle conditions locally and have interfered to some extent with proposed local improvements. Based upon the knowledge that lower rates than those enjoyed in Jacksonville were given by utility companies in other cities, the people generally here have believed that they were entitled to better rates. While it remained for a few citizens to take the active steps which brought about the investigation, and the rate reduction order, the interest was general in the case.

The finding should not in any way interfere with the friendly relations between the company and the public, but, in fact, should have the effect of making those relations more cordial. It is for the best interest of the city for the company to furnish service at the best figure compatible with good business management and for the public to feel that adequate service is being given at a fair price.

While the people generally have believed that lower rates were due, there is not a feeling of bitterness against the company; instead, there is the feeling that the company is a Jacksonville institution; that it is one of the largest tax payers here; that it gives employment to a large number of people, and that it is entitled to protection and fair treatment from the public.

The records of the rate hearing occupy thousands of pages of typewritten matter and testify to the painstaking methods used by the commission. It is only reasonable to believe that the commission has been fair in its finding and has fixed rates which will entitle the company to earn a fair return upon the money invested in its Jacksonville properties. That is all the company is entitled to, and that's what the people want them to have.

Let us hope, therefore, that following this long period of investigation and consequent unrest, that now will come a continuous period of activity and improvement. With lower rates undoubtedly will come increased consumption, and with the company removing objections to public improvements, these betterments can be more speedily made. The decision should mean more prosperous conditions for the company and a period of betterment and improvement for the city.

MORTUARY

Horror.

Funeral services for Mrs. Eva Barbara Horror were held from the German Lutheran church Thursday afternoon in charge of the Rev. J. G. Kuppler, pastor. Solos were sung by Mrs. Robert Stice. The flowers were cared for by Elsie and Rosie Osterholt, Fannie Motchman and Anna Weigand. Interment was in Jacksonville cemetery and the bearers were: M. Luken, Charles Steise Chris Lindeman, Frank Pechloeffel Frank Paradise and Gus Muehlhausen. At the grave the Ladies' Aid of the church which attended the funeral in a body gave a song.

Hook.

Funeral services for Mrs. Matilda Hook were held from Trinity church at 2 o'clock Thursday afternoon in charge of the rector the Rev. J. F. Langton. Music was given by the church choir. The flowers were cared for by Mrs. Albert Cox and Mrs. H. W. English. Interment was in Diamond Grove cemetery, the bearers being, H. M. Andre, W. T. Capps, Walter Bellatti, J. G. Ames, Charles Faucett and Mr. Robinson.

Teale.

The funeral of Mrs. Charles Teale was held from the residence of Hassell Hopper Thursday morning at 10:30 o'clock in charge of the Rev. F. B. Madden assisted by the Rev. F. A. McCarty. Music was by a quartet composed of Mrs. E. D. Canatsey, Mrs. Helen Capps, E. A. Hearn and A. E. Pinkerton. The remains were taken to Waverly Thursday afternoon on the Burlington where interment was made in Waverly cemetery. Brief commitment services were said at the grave by the Rev. N. R. Johnson, pastor of the Waverly M. E. church.

The bearers at the home were William, Robert and Fletcher Hopper, Thomas Fox, James Wilson and Frank Hunter all cousins of the deceased. At Waverly the bearers were: William Graves, Henry Dipple, William Shram, Walter Chalmers, Joseph Chalmers and John Edge.

Mrs. Joseph Hollowell of Woodson has received news that a cousin of hers, Mrs. Lizzy Dickens, died at her home in Sopulpa, Okla. Mrs. Dickens died on March 2. The family lived here about twelve years ago on South East street. She is survived by her husband, Thomas Dickens, and was a niece of the late Mrs. Nancy Palmer, who lived on South East street.

Funeral services were held at Sopulpa, Okla., and interment was made at that place.

Why Batteries Don't Last Forever

After repeated inquiries as to what the life of a storage battery should be, the subject has been covered in brief by the Willard Storage Battery Company of Cleveland. They contend first of all that its life depends upon its construction, its care and the service it receives.

"Take all together, a storage battery well-cared for costs less to maintain than any other accessory as vital. If kept charged at proper rate and filled with pure water, the life of a first-class battery averages from 1 1/2 years up.

"At the same time, a battery, however well made and well cared for, will wear out and must be renewed. It is an electrochemical apparatus constantly changing its condition to supply current for lamps and starter. The better the materials, care and factory service, the longer its life. Some motorists believe a battery should last indefinitely like a spring or an axle, but this belief is being overcome by the educational measures of progressive manufacturers who want their customers to know why certain facts are facts."

The Willard Company has done much along these lines and the result is evident in the better care batteries are receiving everywhere.

MATRIMONIAL

Yeck-A-Or.

Glen Yeck, a clerk in the store of Onken, Meyer & Cratz at Concord, and Miss Jane A-Or of Concord, were married Wednesday afternoon at the M. P. parsonage, Rev. Mr. Fairchild performing the ceremony. The couple are both well known and highly respected residents of Concord where they will continue to reside. A large crowd assembled the same evening at the home of the bride's mother, Mrs. Mary A-Or, to treat them to an old fashioned charivari. The bride and groom handed out the treat consisting of candy and cigars.

TOO YOUNG TO JOIN MARINES.

Houston, Texas, March 23.—When a false mustache, with hence bristling points, worked loose on the upper lip of John Homer, an applicant for enlistment at the local United States Marine Corps recruiting station, it was discovered that Homer was a runaway, 17 years of age, and had hit upon the mustache disguise to add age and dignity to his appearance.

But "cruel" Sergeant Robinson of the Marines shattered the boy's romance with the announcement that he'd have to wait until he was 21 or else get parents' consent, and now young Homer is inclined to the belief that there is little efficacy in the borrowed movie plot when applied to life's stern realities. "I'll come back some day with a real mustache of my own and then you'll be glad to accept me as one of Uncle Sam's brave Marines," were Homer's parting words.

MOTION TO REPUDIATE SCALE AGREEMENT CAUSES SHARP CLASH

PEORIA, Ill., March 23.—A motion to repudiate the scale agreement made in New York between the United Mine Workers and the operators caused a sharp clash between two factions today at the opening session of the convention of the Illinois branch of the United Mine Workers of America. The convention opened this morning and will continue in session for two weeks. Delegates here to attend the sessions numbered over 700.

Immediately after the motion to repudiate the New York amendment was made the chair ruled it out of order. The ruling precipitated a wrangle, and after a debate of considerable length a vote was called for and the chairman's ruling sustained by a vote of 172 to 156.

The announcement of the result caused the debate to break out afresh and soon a roll call was demanded. This time the decision of the chair was defeated, the vote being 363 to 238. The resolution will probably be buried in committee tomorrow morning.

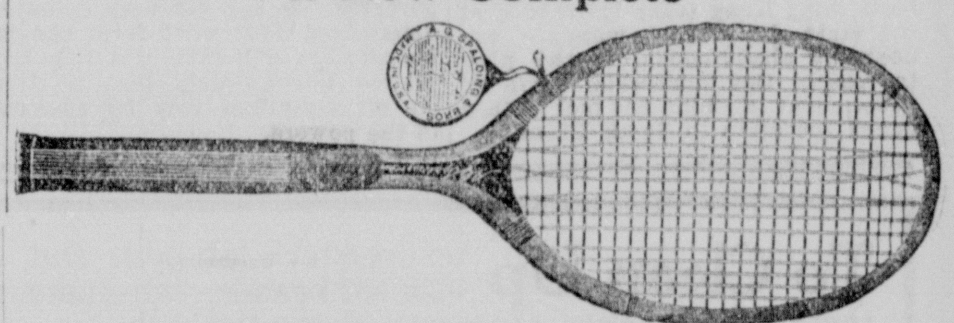

REPORTS BILL FAVORABLY.

Washington, March 23.—The house labor committee today reported favorably the bill of Representative Tamm of Illinois, preventing use of stop watches or other timing devices in government arsenals, navy yards or other shops for standardizing the service of employees. It also prohibits the giving of cash bonuses for speeding up or for anything except suggestions for improvement and economy.

CONDITION UNSATISFACTORY TWO MONTHS AFTER BANK OPENED

James B. McDougal, Who Made Examination of LaSalle Street National, Testifies at Lorimer Trial.

Chicago, Mar. 23.—Two months after the opening of the LaSalle Street National Bank, which later became the LaSalle Street Trust & Savings Bank, its condition was found unsatisfactory, according to James B. McDougal, who made an official examination. Mr. McDougal, now governor of the Chicago Federal Reserve Bank, was former chief examiner of the Chicago Clearing House and was a witness today in the trial of William Lorimer, charged with conspiracy to wreck the LaSalle Street Trust & Savings Bank.

The first examination made of the bank, the witness said, was in July 1910. He made a second examination in January, 1911, and in his report to the clearing house officials said he believed that there were a number of loans to officers and directors that were subject to criticism. In response to questions by assistant State's Attorney Bell, Mr. McDougal said it was seldom that bank officials borrowed money from their own banks, but some banks allowed directors to borrow from their own banks if they could give suitable security.

ARREST MEXICAN EDITOR.

El Paso, March 23.—The police tonight arrested Emilio Valenzuela, editor of LaConstitucion, a Mexican paper which supports Felix Diaz for publishing an editorial denouncing the crossing of the border by American troops. Copies of the paper were confiscated and the plant closed. The editorial declared that Mexico was in danger of losing her national honor and that her young men were confronted with the duty of enlisting for an external conflict.

MEETS MIXED RECEPTION.

Shanghai, March 23.—Advices from Hong Kong today indicate that the state department mandate announcing abandonment of the plan to resume the monarchical form of government in China has met with a mixed reception in South China.

LOG BOOKS MARKED "H. M. S. CUMBERLAND" ARE WASHED ASHORE

Marine Men See Possibility That Cruiser Might Have Met Disaster.

Norfolk, Va., Mar. 23.—A possibility that the British Cruiser Cumberland might have met with disaster off the middle Atlantic coast was seen by marine men tonight in the finding of several log books marked "H. M. S. Cumberland" on the North Carolina shore near Chicomico. The books were found today by coast guards, who reported they apparently had just been washed ashore.

The Cumberland is a protected cruiser of 3,800 tons displacement and has a main battery of fourteen six inch guns.

Embassy Officials Not Alarmed. Washington, Mar. 23.—At the British embassy tonight it was said that the Cumberland was cruising on this side of the Atlantic and might have been off the North Carolina coast recently. Embassy officials apparently were not alarmed over the finding of the log books and suggested that the books probably were some discarded records that had been thrown overboard.

WESTERN UNION BUYS

OUT TELEGRAPH COMPANY
Ottawa, Ill., Mar. 23.—A deal has been disclosed here whereby the Illinois & Mississippi Telegraph company disposes of all its properties and franchises to the Western Union Telegraph company for \$1,500,000. The Western Union company has leased the lines of the Illinois & Mississippi company since 1889 at an annual rental of \$85,900.

TO MAKE COMPLETE

STATEMENT OF POSITION
Washington, Mar. 23.—The United States soon will make for the information of the nations of the world, a complete statement of its position in regard to the conduct of submarine warfare and the arming of Merchant ships for defensive purposes. It has not been definitely determined just what form the announcement will take, but it is considered not unlikely that a circular memorandum may be addressed to the powers.

REPORTS OF HERRERA'S REVOLTING AGAINST

(Continued From Page One.)

forces; the restoration of radio communication with General Pershing's force, and the satisfactory progress of diplomatic negotiations with the de facto government served to relieve anxiety.

An official denial from the Carranza authorities at Juarez that Herrera had revolted was presented to Secretary Lansing in person by Eliseo Arce, ambassador designate of the de facto government. No reply yet has come from General Carranza to the request that American troops be permitted to use the Mexican Northwestern railway in their pursuit of Villa. Reports from the border said General Pershing already was making use of a portion of the line.

War department advices did not mention this.

Tension Manifest in Congress. The tension produced by the reported revolt in favor of Villa was manifested in congress. Both Republican and Democratic leaders however, exerted efforts to check discussion until definite information was at hand.

In the senate Senator Stone chairman of the foreign relations committee objected to the reading of a telegram offering the services of 400 volunteers, presented by Senator Johnson of South Dakota. He said nothing should be done that might tend to make more acute an already acute situation. Senator Sherman made no effort to call up his resolution introduced yesterday to authorize the call for 50,000 volunteers.

Democratic leaders in both house and senate said privately that congress was keenly alive to the situation along the Mexican borders and beyond where American troops might be hemmed in by revolting garrisons in their rear. There would be no delay, it was stated in meeting any request for additional troops the president might make.

A new problem was presented today with receipt of General Funston's request for eight additional aeroplanes and aviators for scouting duty on the border and in Mexico. Department officials had this matter under advisement tonight. While there are several other army aeroplanes available it was considered doubtful if they were serviceable for the work. Representatives of aeroplane manufacturing companies were consulted and it is understood that new machines can be purchased immediately. The naval department was still without direct word from the Tampico district. Unofficial reports have asserted that anti-American demonstrations had occurred there.

TWO POLICEMEN SHOT.

Chicago, Mar. 23.—Patrolman John McShea and Policeman Richard Gormley of the sanitary district force were shot tonight in a revolver fight with three robbers. McShea came upon the men as they backed out of a saloon they had just robbed. They opened fire on him and Gormley ran to his assistance and joined in the shooting. Gormley is probably fatally wounded, it was said at a hospital to which they were taken. The robbers escaped.

ASCERTAIN NOTHING DEFINITE

The Haugue, Mar. 23.—via London.—Tubantia—"Nothing definite yet has been ascertained concerning the sinking of the Steamer Tubantia," said Minister of Marine Rambonette to the Associated Press representative today, "but nothing will be left undone by our department to try to establish which certainly the cause of the disaster. The rumors that it has been definitely established that they were pieces of a torpedo are unfounded."

TROOPS MAKE FAST MARCH INTO MEXICO

(Continued from Page One.)

last the wagon trains, field hospital and sanitary equipment and the field wireless. The orders were for every man to travel light.

Trains Are Long and Heavy. The trains nevertheless were long and heavy. Vast quantities of ammunition for all types of arms, including the machine guns of the cavalry and infantry, accounted for most of the weight. Rations, carried for only five days, were bacon,hardtack and coffee.

The column stretched out the length of a mile and a half. The American troops camped near a series of lakes.

When the troops entered Mexico an advanced guard was spread out in the form of a wide fan and in this formation the guard galloped southward. The temper of the Mexicans was still a matter of speculation. There were officers who would not have been surprised to see the entry of the United States forces opposed at the boundary.

But there were no Mexicans at the border gate, and none were seen on the march to Palomas.

Only two bodies of armed men, both small and sympathizers of Carranza, were encountered by either of the columns on the march here.

Major James A. Ryan of the Thirtieth cavalry, acting chief of staff to General Pershing, found at Palomas just two human beings, a crippled Mexican and his wife.

Infantry were posted all along the route from the border to Colonia Dublan to guard the line of communication, engineers maintained the road for wagon trains and motor trucks. Colonel Stocum's column made Boca Grande from Palomas March 16. This was the point from which Villa started on his raid on Columbus. It was near Boca Grande that Villa captured and murdered Arthur Kinney, a roundup boss for the Palomas Land and Cattle company, and three other Americans, just before the raid.

American soldiers found the body of one of the victims, battered and mutilated, and in such a condition that it could not be recognized.

Men and Officers Healthy. Men and officers of these columns were not permitted to drink water that had not been previously tested. They were forbidden to enter Mexican houses for fear of typhus. The result was that all are healthy and in good condition. The orders issued by the commanding general provided also that no town should be occupied. For that reason the temporary base here was established, two miles outside of Colonia Dublan, and four miles from Nueva Casas Grandes, where the Carranza authorities maintain a small garrison.

Army officers said they found Carranza officers, both civil and military, ready to accord hearty co-operation in the task of hunting down Villa and his bandit band. The intelligence department of the American punitive expedition, headed by Major Ryan, received much information from Carranza sources. American colonists, near the old town of army camp, declared the feeling among the Mexicans there was tense, but there has been no evidence of it.

WAR HAS EFFECT ON LAUNDRY SUPPLIES

Questions of Economy in Management Taken up at Convention in Peoria.

O. N. Barr, of Barr's laundry, has returned from Peoria where he attended a convention of the Illinois State Laundrymen's association. The general theme of reduction in cost of operating expenses was taken up and new problems caused by the war-inflated prices of chemicals and cleansing materials, were considered.

In addition to the regular convention sessions, special entertainment was provided by Peoria laundrymen. Monday night the delegates listened to an address by a well known humorist and enjoyed a smoker. Some twenty-five members of the Missouri association were guests of the convention.

Bluing which before the war was purchased for five dollars a pound has risen to fifteen dollars and a six dollar grade has doubled in value. Some companies are experimenting with a kind of blue coloring, used extensively in the sugar industry, but it is not known for certain whether this aniline dye will prove as generally satisfactory as the other kinds or not. Oxalic acid has jumped from nine cents to sixty-five cents a pound, tho the fact that many laundries now use an oxygen bleach has made that change in price less noticeable. Chloride of lime has gone from five to fifteen cents a pound. Inks for marking have taken a jump and the same is true of paper and bags.

STEAMER CALLS FOR HELP.

Norfolk, Va., Mar. 23.—The Malory line Steamer Alamo, sent out a wireless call for assistance to night and the coast guard cutter Onodaga went to her aid. The Alamo was reported 130 miles north east of Cape Hatteras with a broken rudder and her engines disabled.

The Alamo reported by wireless yesterday that she was being towed to New York by a tug. Her message tonight did not state whether the tug still was with her. She carries fifty passengers and was bound from New York for Texas ports when she became disabled.

Tooth Loose? Watch out for Pyorrhea!

When you find a tooth that gives back and forth even just a little, see your dentist at once

He will find conditions which you might overlook. He will find a gum recession, even though slight, where the gums have pulled away from the teeth. And he will tell you that you have the dread disease pyorrhea.

From pyorrhea come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today, or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedies Company 503 Union Central Building, Cincinnati, Ohio.

RETAILING TROUBLES

"I don't know what's the matter with me," complained Quackenbush. "My back's itching in the most ridiculous way, so that I'm always looking around for a hitching post or something to rub against. A sort of rash has broken out—"

"Go and see a doctor, doggone it!" interrupted the hotelkeeper.

"I'm sick and tired of having blithering lunatics come into this hotel explaining their griefs. If I had the mange or the seven-year itch, as you seem to have, I wouldn't ask a hotelkeeper to prescribe for me; I'd hunt up the best physician in town, or go to the drugstore and read almanacs until I found some patent medicine that would cure me."

"I'll be dinged if I can see why all the people in this town come to me with their troubles, instead of seeing somebody who could offer some relief. Hiram Dicknaler was here a while ago, telling me that he simply can't live with his wife any longer. She's got to be such a shrew that her tongue is clacking away like a millwheel all the time, and she has acquired a painful habit of dotting him over the head with rollingpins and other household utensils. After he had talked for three hours I asked him why he didn't hunt up a lawyer, who could tell him just what it would cost to get a divorce. He seemed offended at that suggestion. Of course he fully intends to keep on living with his wife, and he wouldn't buy a divorce if he could get one at the ten-

cent store. He just wanted to hang around this hotel and talk my whiskers off."

"After he went away Isaac Whangbaxter blew in to tell me that half the auto drivers in town ought to be in jail for violating the speed laws and running amuck generally. He says they go whizzing around town at forty miles an hour, and every time he crosses the street somebody runs over him and breaks a few of his limbs. He talked to me about this grievance as the he held me responsible, and the truth is that I have no influence with the speed maniacs in this town, and I told him so."

"The chief of police was standing in front of the hotel when Whangbaxter came in, but Isaac never said a word to him. I've been run over by several automobiles myself, but when anything of that sort happens I don't go to a millinery store or a photograph gallery to file a complaint. I go to the police station and read the riot act, complete and unabridged."

"I see old Cap. Dingbat coming across the street, headed for this hotel, and he's going to tell me how the grocers in this town have formed an unholy combine for the purpose of keeping the prices sky high. He comes here every day and explains this crime against the people, but he never says a doggone word to the grocers. When he goes to a prime store he's so blamed polite and affable that he looks like Chesterfield in disguise."

CANADIANS FEEL SPIRIT LACKING IN UNITED STATES

Carl Boruff From Yorktown Tells of Some of the Expressions Heard in the Dominion.

Carl Boruff who is here from Yorktown, Saskatchewan, Canada, is making a brief visit on the way to his northern home after a trip thru the south and over to Cuba. Mr. Boruff has been in Yorktown for several years, where he holds a position with the Canadian Pacific. He said in conversation yesterday that practically all of the young unmarried men and a number of married men from that city had enlisted for service in the European war and had gone to the front with the English troops. Mr. Boruff says that Canadians now are manifesting some feeling of jealousy to the U. S., tinged even with a little bitterness. Originally most of them believed that the U. S. could be most helpful to them in the great conflict by remaining neutral and furnishing war munitions, but after the sinking of the Lusitania the sentiment changed somewhat and many Canadians came to the view that the U. S. should cer-

tainly enter the conflict on the side of the allies. They freely charge America with cowardice and with a willingness to take most any affront from Germany. This feeling, however, does not exist to the extent that citizens of the U. S. are ostracized, nor are they boycotted in a business way. Canadians talk freely about the matter and criticize the course of the United States. General business conditions have not been greatly changed in Canada by the war, although there have been some changes because of many who have left Canada to go to the front. Mr. Boruff has been so long in Yorktown that he feels his home is there and he expects to remain a Canadian resident for some time to come.

Mrs. T. A. Chapin enjoyed a visit Thursday from Mrs. Fox of White Hall and Mrs. Knox of Manchester.

John Hamilton of Sangamon county is in the city for a visit with Mr. and Mrs. E. G. Caldwell of West Lafayette avenue.

Mrs. G. W. Sargent has returned to Meredosia after a visit with her parents, Mr. and Mrs. J. H. Horn, on Hardin avenue.

DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

Look at Tongue! If Coated, Clean Little Stomach, Liver, Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask our druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Adv.

NO INDIGESTION, GAS OR STOMACH MISERY IN FIVE MINUTES

"Pape's Diapepsin" for Sour, Acid Stomach, Heartburn, Dyspepsia.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.—Adv.

HOW "TIZ" GLADDENS TIRED, ACHING FEET

No More Sore, Puffed-up, Tender Aching Feet—No Corns or Callouses.

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters, bunions and chilblains.

"Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" brings restful foot comfort.

"Tiz" is magical, grand, wonderful for tired, aching, swollen, smarting feet. Ah! how comfortable, how happy you feel. Your feet just tingle for joy; shoes never hurt or seem tight.

Get a 25 cent box of "Tiz" now from any druggist or department store. End too, torture forever—wear smaller shoes, keep your feet fresh, sweet and happy. Just think! a whole year's foot comfort for only 25 cents.

INSTRUCTS QUARTERMASTERS TO REPORT TO U. S. ARMY DEPOTS

SPRINGFIELD, Ill., March 23.—It was learned today that quartermasters and commissary officers of the Illinois National Guard have been informed that it would be well for them to report as soon as possible to the United States army depot quartermasters either in St. Louis or Chicago for instructions in event of mobilization of the national guard.

Few of the quartermasters in the national guard it is said, have any idea of the number of railroad cars they would need for their respective regiments in case of mobilization or the exact tonnage of the equipment to be transported.

STAGE SET FOR WILLARD-MORAN FIGHT IN NEW YORK TOMORROW

Both Battlers Are Ready For the Fray—How the Fighters Compare—Other Big Fights.

Some Details of the Championship Fight.
The Principals—Jess Willard and Frank Moran.
The Referee—Charley White.
The Fight—10 rounds, no decision.
The Place—Madison Square Garden, New York.
The purse—Willard gets \$47,500; Moran, \$23,750.
The championship of the world does not pass unless Willard is knocked out or fouls Moran.

New York, Mar. 24.—Unless some unforeseen hitch occurs today, over the financial end of the big championship battle, nothing can prevent the staging tomorrow night of the ten-round bout between Jess Willard and Frank Moran. Both men are extra careful in their training, and there is little likelihood of an accident that would interfere with the contest.

The big battle is to be staged under the wing of the State Boxing Commission, which is meeting its first big test as the defense of the public against fake fights. Everything must be on the level or there will be no fight. The big pile of money that has been collected thru sale of tickets at fancy prices is held intact, and it will go right back to the ticket holders if anything breaks.

Both the boxers are reported to be in the pink of condition. Some of the experts do not agree on this point. There are rumors that Moran is over-trained, and persistent stories that Willard has loafed on the training job. But the bout is for only ten rounds, and it is generally conceded that both men are sufficiently trained to go that distance without distress unless they are interrupted, by one or the other, by a haymaker.

Moran has completed his heavy work, and it taking it easy, and Willard is taking only light exercise.

Short-Enders Often Wins.

It took Corbett 21 rounds to batter down the game John L., who finally succumbed, not from any one punch, but from the continual battering he received.

It took Bob Fitzsimmons fourteen rounds to flatten Jim Corbett with his famous solar plexus punch at Carson City nineteen years ago. It took Jefferies eleven rounds to strip Fitzsimmons of the title two years later at Coney Island.

Even Jefferies, tottering as he was when he defended the championship against Johnson, stood up before the negro for fifteen rounds in that memorable battle at Reno in 1910.

It took twenty six rounds for youth and stamina to triumph over age when Jess Willard ascended the throne over the prostrate Johnson at Havana last April.

Accepting these five fights as the outstanding examples, it is found that a total of 87 rounds of fighting have been consumed for the heavyweight crown to change hands five times. This makes an average of over seventeen rounds per fight.

From these figures, and averages have been found to be a pretty good thing to go by, the fight followers cannot foresee a definite decision for the ring battle at New York tomorrow night, when Willard defends his title against Frank Moran. The fight is limited to ten rounds. Only through the unexpected can a decision come earlier. There is at all times the change for the lucky blow to a no-decision scrap.

Apart from this speculation, the figures show another interesting fact, namely that an "outsider" has in each instance plucked the coveted title. It is also observed by the betting fraternity that the short-ender has come through in each of these battles.

The Corbett Sullivan Fight.

When trim Jim Corbett, the California bank clerk, was stacked up against Sullivan, it was generally believed that the big Boston fighter was invincible, and that he would dispose of Corbett without much effort. Odds of 3 to 1 were quoted, and Sullivan money went begging.

When Fitzsimmons essayed to grab the prize from Corbett, the latter was rated a 10 to 6 favorite in the betting. Again the short-ender won.

And when Jefferies, with nothing but his ability to take punishment and a powerful wallop, came forth to do battle with Fitz, there were few who could see more than a long chance, and the odds were 2 to 1. For the third time the outsider punched his way to the top.

Even though he had worn the cloak of retirement for several years and none knew whether he was the Jefferies of old or a fatted replica of his former self, Jeff stepped into the ring a favorite against Jack Johnson. Liberally supported throughout the land.

Willard's case was somewhat of an exception, for it was known that Johnson was not himself after his gay life on the Paris boulevards. The husky Kansan had his backers, and he was generally accorded an even chance. But the dope ran true and the outsider brought home the bacon.

This dope has been read to Frank Moran, and the Pittsburgher finds the stars set in his favor. Moran has had a long, up hill struggle in the fight game, and tomorrow night's battle is the climax of his hopes.

Will the outsider again win? How the Fighters Compare, Jess Willard—adv.

BRING FOUR MEN FROM FRONT IN NEED OF MEDICAL ATTENTION

COLUMBUS, N. M., March 23.—Transport trucks returning here today from General Pershing's headquarters brought four enlisted men in need of medical attention. Only two of the men were seriously injured and these were taken on litters to Fort Bliss, Texas.

F. M. Roberts, a private was suffering from pneumonia and William Brookes a horseshoer in M Troop, Eleventh Cavalry was badly crushed in a fall from his horse at Colonia Diaz. The other men were suffering from minor diseases.

Military leaders here denied persistent rumors of an engagement in which American soldiers were said to have been wounded, it being asserted that the cases received today were the first of any kind in the command.

U. S. OPENS IRRIGATED TRACT IN NEBRASKA

Allance, Neb., March 23.—About 14,000 acres of fertile land in the valley of the North Platte, adapted for general farming, livestock raising and dairying, will be opened tomorrow to homesteaders. The land office here will receive entries for 40 to 80 acres tracts for which water is now available from the North Platte Irrigation Project. The land for the most part is fairly smooth and is said to be easily prepared for crops.

The land will be disposed of by a drawing, which insures an equal chance for all applicants. Under the terms of the reclamation law, entrymen are granted twenty years time within which to meet the charges for water right. The second payment is not required until five years after the date of making entry.

SELLING SMOKE CONSUMERS.

D. W. Wishert of Quincy was in the city Thursday. Mr. Wishert represents a steamboat line out of Quincy and his trip here was to close a contract for smoke consumers similar to the one now installed at Barr's laundry.

TRADING LOSES NOTHING OF ITS FAMILIAR PROFESSIONAL TONE

Leading Stocks Rise and Fall Within Fractional Limits During the Greater Part of Listless Session.

New York, March 23.—During the greater part of today's listless session leading stocks rose and fell within fractional limits, except in the forenoon when an abrupt decline in the Mexican group, chiefly that the petroleum caused recessions of 1 to 5 points. Trading lost nothing of its familiar professional tone, commission houses reporting a dearth of outside interests and dealings were on an increasing scale of narrowness.

Rails were more neglected than usual until toward the close, when an inquiry for Reading, which made an extreme gain of 1½, awakened interest in other shares of the same class.

In general, munitions equipments and oils contributed more than their usual large quota. Mexican Petroleum being the most active issue of the day. It recorded an extreme loss of 5½ at 1.04½, but closed at 1.05½. United States Steel offered some resistance to pressure on forecasts of earnings for the quarter now drawing to a close, but Bethlehem Steel continued to yield, falling 9 to 545. Total sales of stocks amounted to 485,000 shares.

Bankers expressed no surprise at the reported refusal of the entente allies to grant a loan to Greece; francs were extremely weak, a condition traceable to the higher rates for sterling in Paris, and marks held fractionally over recent minimum quotations. Rumors of additional gold exports to Holland were not confirmed.

RENEWED SUBMARINE ACTIVITY CAUSES SETBACK IN WHEAT

Market Closes Heavy at ½ to 1½ Cents Net Lower—Corn and Oats Show Losses.

Chicago, March 23.—Renewed activity of submarines causing the loss of four ships, two of them from the United States, had considerable to do today with a setback in the value of wheat. The market closed heavy ½ @ ½ to 1½ cent net lower, with May at 1.08 and July at 1.06½.

Corn finished 1½ to 2½ cent down, oats off ½ to ½ cent, and provisions varying from unchanged figures to a decline of 15c.

Sharpest breaks in the price of wheat followed the announcement of a second vessel from the United States having been destroyed by a submarine. This time the market showed little or no power to recover, and final transactions were at virtually the lowest level of the day.

Heavy liquidating sales by holders carried corn decidedly down grade. Big stocks here and the absence of an adequate outlet seemed to have ground too burdensome, especially after wheat began to break. Liberal sales of corn to manufacturers of alcohol had only a temporary bullish effect.

Oats displayed sympathy with the action of corn. The trading in oats was almost wholly of a local character.

Provisions were weakened by the depression in grain. All strong spots in the market were taken advantage of to secure profits for owners of lard and ribs.

MINNEAPOLIS GRAIN MARKET.
Minneapolis, March 23.—Wheat—Market lower. There was little trading in corn and oats. Prices unchanged. Wheat—Cash: No. 1 hard 1.15½; No. 1 northern 1.07½ @ 1.13½; to arrive 1.10½ @ 1.12½; No. 2 northern 1.07½ @ 1.10½; No. 3 wheat 1.03½ @ 1.07½.

BRINGS STORY OF HARDSHIPS SUFFERED BY AMERICAN TROOPS

Seigneur Harrison of Thirteenth Cavalry Tells Story of His Bed in El Paso Hospital.

El Paso, March 22—The first story of the hardships suffered by the American soldiers in their now famous march across the Chihuahu desert was told here tonight by Sergeant W. P. Harrison, of the Thirteenth Cavalry. Sergeant Harrison told his story propped up in bed in the hospital where he was taken on his arrival here suffering from dysentery.

"We went in first," he said, "there wasn't any cheering. That stuff is bunk. Everybody was serious and not much was said. We all started off at a brisk trot and at once the dust began to rise. There wasn't a breath of air and the dust hung over the road like a curtain. The alkali got into our eyes and down our throats, it sifted into our shoes and thru our clothes. The sun burned down into our skulls. We put wet handkerchiefs into our hats but it did not help much. Most of the fellows rode along with their eyes shut to keep out the dust and glare. Many of the men were half blind by noon.

"You should have seen the faces of the men after an hour or two. The dust settled on the sweat and then the sweat would run down leaving a little furrow. Some of them looked like painted Indians.

During the marches the boys stopped ten minutes every hour for rest. When the word was given they just dropped in their tracks in the road. No stop was made for dinner. It was just one steady hike from morning until we reached the camping place. The infantry was strung out so that the detachments were a day's march apart. That is the way they are going now.

"We got no water from Columbus to Boca Grandes, thirty one miles. The water in my canteen got so hot that I could hardly drink it. Most of it I poured on my head to stop the headache.

"Do you know how much stuff a 'dough boy' (infantry man) has to carry? Well it's about fifty pounds. Just as soon as they sat down, off would come their shoes. The gritty road cut their shins to bits and the alkali made their feet swell and blister. I saw some of them having a fine time getting their shoes back on their feet."

MRS. BROWN PLEASES DES MOINES AUDIENCES

The Des Moines Evening Tribune of Saturday, March 18, has the following to say of Mrs. William Barr Brown and her appearance in Des Moines:

"Mrs. Barr Brown, visiting guest, who has been delighting Des Moines society with her lovely voice at the numerous social functions given for her and Mrs. James Matthews of Jacksonville, Ill., will sing Sunday evening at the First Baptist church."

"Mrs. Brown is proving an exceptionally popular guest, this week there being a party each day with the promise of many more during her visit with Mrs. Abner Upham."

"Besides the charming personality that wins friends for her at once, Mrs. Barr Brown's voice has a beautiful tone, and she has been most generous in using it for the pleasure of her acquaintances here. She studied in Chicago and New York and spent eighteen months in Paris under Jean de Resake. Altho not now a professional singer she has done a great deal of concert work in this country."

"The Des Moines people, who have heard her, have insisted that a similar opportunity be given their friends and Mrs. Brown's appearance at the First Baptist church Sunday evening is being eagerly anticipated."

WONDERFUL TALE OF AN ACTRESS

Struggled with Sickness and Discouragement; How Relieved.

Dayville, Killingly, Conn.—"I shall be glad to have every woman know what I know now, after using Lydia E. Pinkham's Vegetable Compound. Although I am only 24 years old, I have suffered for the past eight years. I hated the doctors, for a doctor told me to give up the stage where I was playing with my husband.

I had bearing down pains, my health failed me, and I could not work on the stage, and wasn't able to tend my baby or even get around myself. I was always downhearted and discontented with the world, and only lived for the sake of my little girl. The doctor said to move to some quiet little town away from the noisy city, and I might be able to live and feel well, so I went to Dayville in November. At that time I was so sick I could not walk around, and my husband kept house and I stayed in bed. One day in January I read your advertisement in a newspaper, and I sent for Lydia E. Pinkham's Vegetable Compound, and started taking it. Within two weeks time I was a different woman, could get around, and felt so good that it was a pleasure to do my housework. I felt contented and happy, and now am the picture of health, and am tempted to return to the stage. We appreciate my health as the most precious thing on earth."—Mrs. H. L. KLENNETT, Box 55, Killingly, Conn.

The Penalty for a Good Reputation

When an article has been on the market for years and has given complete satisfaction when used in thousands of homes it creates for itself a valuable reputation, yet at the same time this good reputation has its penalty.

Foley's Honey and Tar Compound enjoys a splendid reputation, for it has been used for three generations. Its fair name and high repute have created a demand for it, and to supply this demand at a price which makes it a valuable remedy for the original and genuine Foley's Honey and Tar Compound, which has proven so valuable for the relief of coughs, colds, croup and whooping cough.

CONFERENCES AT THE Y. M. C. A. WILL COME TO CLOSE, TODAY

Reports From Committee Chairmen Will Be Heard at Luncheon This Evening—F. M. Deerbake Speaks of Modern Association Work.

"The Young Men's Christian association always on the job," is the ideal held forth by the state secretary, K. A. Shumaker, and the field secretary, F. M. Deerbake, in Jacksonville for a series of conferences with the committees of the local association. The state officers travel to all parts of Illinois and are thoroughly conversant with association work as it is being carried out. It was with the special purpose of checking up the activities of the various associations and raising efficiency to the highest point, as well as giving each local Y. M. C. A. the benefit of the experience of other associations, that the state board recently set apart a period of two months for this series of set-up conferences and sent out the secretary and field secretary for a tour of the state.

Thursday noon the boys' work committee met and with the chairman, Carl H. Weber, engaged in review of methods with the state workers. Thursday evening there was a conference with the religious work committee and W. C. Springgate.

The Program Today.
Today is the last day of the conference and it is desired that association members, and especially members of the board take advantage of the presence of the state workers. At 6:15 o'clock there will be a general "round up" committee chairman will report in five minute talks. At noon today the executive committee, with H. J. Rodgers as chairman, and the finance committee, with W. G. Goebel as chairman, will meet in conference. The presence of each member of the board of directors is especially desired at this time.

A pleasing feature of the set-up conferences has been the serving of the luncheons, Tuesday by Mrs. H. A. Brewer, Wednesday under supervision of Mrs. Floreth, Thursday by Miss Helen Doying and today by Mrs. A. B. Williamson at the evening luncheon and Mrs. W. J. Lucas at noon.

The New Outlook.
"The Y. M. C. A. has heretofore laid strong emphasis on physical growth, upon the erection of new buildings and the securing of better equipment," said Mr. Deerbake in discussing the meaning and intent of the conference. Now the time has come for attention to methods of work and a striving for the best use of the materials at hand, for development of character and the conservation of young manhood. Opportunities for service are almost endless.

"Forum clubs or public arenas have been established for discussion of current events and have proved very popular as many young men find great profit in such discussion who have neither time nor inclination to engage in formal debating. Life problem clubs have become popular and in these members derive profit from discussion of the vital issues confronting each. Talks by business or professional men of the community are arranged to help in selection of a vocation. Many people have the idea that night school classes and religious study is the principal phase of the association educational work, but in the best developed Y. M. C. A. the forms of activity in which this committee engages are many and varied. Lecture courses and talks by specialists of various kinds may be arranged.

Training Toastmasters.
A toast masters' club has proved a very great success in one northern association. Here the members meet at stated intervals for luncheon and at the end of the meal a program and toastmaster is announced. No one knows in advance the subject upon which he is to speak or when his turn will come to preside. As an efficient drill in after dinner speaking this has worked excellently and the club is providing one of the most popular phases of the educational work.

Illustrated Talks.
"The stereotyped or projectoscope may do much for work of the social committee. Many railroad companies as well as several government departments will send slides for postage charges and in this way profitable entertainments of varying length may be arranged.

Informal "sings" are always in vogue, where there are proper facilities and the state officers urge that the young men of musical talent be encouraged in the furthering of musical entertainment for the association.

Welcoming the Stranger.
Often has the criticism been heard that the stranger drifting into a strange Y. M. C. A. is met with an all too cool reception. With no one directly responsible for the meeting and greeting of strangers it often comes to pass that a visitor may not receive proper welcome. Special social committees the members of which have the duty of looking after association visitors one night in a given period are often appointed and such committees are formed in thirties or sixties, making a member responsible for meeting and attending to the wants of strangers one night each month or one night in two months.

ATTENDED FUNERAL.
Miss Florence Parker returned Thursday morning from Hersman, where she attended the funeral of Mrs. Frank Hersman, a former schoolmate, who passed away in California and was brought to her old home for burial. The funeral was held in Hersman Wednesday afternoon.

PARK BOARD AND GOLF PLAYERS HELD CONFERENCE

Arrangements Practically Complete for Proposed Nine Hole Course at Park.

The park board met last evening in connection with F. E. Farrell and J. W. Hubble of the golf interests and fully discussed matters pertaining to the preparation of the grounds for the nine hole course links. There was much satisfaction expressed regarding the status of the question. Teams will shortly be put to work doing the necessary grading and filling in some of the low ground west of the arm of the lake in the south-west part of the park.

The Chicago & Alton officials have promised to act promptly in the work they have agreed to do. They have had the blue prints sent them by Mr. Farrell and his persistent telegraphing and frequent correspondence have borne what seems to be the beginning of good fruit and it is now the confident expectation that the coming season will see in Nichols park a golf course which will have many superior attractions. A number of professional gentlemen of the city have asked what it would cost to play golf and being assured there would be no charge they at once made subscriptions toward the preparations of the grounds assuring the management that they wished to do their share toward making the grounds ready.

It was decided to install practically new playground apparatus as the wooden outfit is pretty well used up and it was the order of the board that hereafter iron sunk in concrete foundations would be used, kept painted and so remain for years to come and it will be constructed in such a manner as to admit of extensions at any time. The question of bringing the playground to the north side of the lake, just east of the tennis court, was discussed, but for various reasons it was finally decided to leave it where it is and grade a portion up level so as to accommodate the new apparatus to be installed.

Mr. G. M. Jackson of St. Louis, in conference here yesterday with the La Crosse Lumber Co., and other local distributors of CERTAIN-TEED Roofing and Wall Board, had this to say of advertising: "It is a phase of modern efficiency. It adds to the buyers information. It is the one most benefited. It suggests to him things of use, comfort, convenience or pleasure. At a glance he can tell if the things fit his needs or wishes. A second glance tells him where they are to be had. His time, his efforts and his money are thus saved. He is a more efficient buyer. Every buyer—and everybody is a buyer—should read informative advertising, because it pays." Mr. Jackson's house, the General Roofing Mfg. Co., is one of the largest national advertisers. That it has paid them is well evidenced by the fact that out of every five rolls of roofing sold one roll is CERTAIN-TEED.

MISSOURI PLANS FOR STATE CENTENNIAL.
St. Louis, March 23.—A committee of prominent Missourians met here recently and formulated the early plans for the celebration of the centennial of the state. It was decided to organize a committee of one thousand, to be composed of five representatives of each of the counties and others from the state at large, representing the vocations, industries and institutions of the people. All of the arrangements will be made by this committee, which will meet in Kansas City early in the fall.

YOUNG FARMER MARRIES WAVERLY TELEPHONE OPERATOR

Miss Allie Jolly Becomes Bride of Mr. Ray Points at Ceremony, Wednesday Afternoon—Other Waverly News.

Waverly, March 22.
Miss Allie May Jolly, an operator at the telephone office and daughter of Mr. and Mrs. Frank Jolly, was married to Mr. Russell Ray Points, Wednesday, at 4 o'clock in M. E. Circuit parsonage by Rev. W. E. Keenan. They are to reside on a farm near Waverly.

Word has just been received that Miss Millie Bryan was recently married in Carlville to Mr. Leta Austin of Modesto, Ill.

Mr. Star Carter of Girard visited his sister, Mrs. Chas. Woods.

Mr. B. Peebles from Carlville spent Wednesday with his brother William Peebles.

Rev. L. A. Holp resigned his position at the Congregational church. His resignation takes effect May 1.

Rev. Fred R. Johnson of the Baptist church has also resigned his charge here in Waverly.

The following high school pupils left yesterday for Jacksonville to take the teachers examination: Ruth Langton, Pauline Kennedy, Alice Everett, Edna Branom, Marie Miller and Violet Hart.

C. L. DE PEW WILL DEVOTE SOME TIME TO RELIGIOUS WORK

Will Maintain Connection with Standard Publishing Company.

When C. L. DePew resigned his position with the state Sunday school department of the Christian church he was not permitted long to remain without connection with another large enterprise. There are three large houses which devote their time and energies to publishing literature pertaining to the Christian church, the weekly paper, The Standard, and all manner of Sunday school helps, books and the like and the main establishment at Cincinnati at once applied to the gentleman for his services as he has such a large acquaintance with the churches of his denomination in the state and the offer was so flattering he couldn't well ignore it.

His special duties will be to encourage by all possible means and promote the use in churches and Sunday schools of the literature mentioned, especially the one at Cincinnati, where the paper of the denomination is printed. He is also to work for the county organizing of Christian churches and promote unity and good fellowship among them. He will retain his office in the Gallagher block and Miss Lillian Graves will be his stenographer. His work will largely be done from this office tho he will do some traveling also.

Today he is to attend a conference in Howitt Street church and proceed thence to Moline to make an address at the annual men's banquet of the Christian church there. That church has been a living link, that is one aided largely by the First Christian church of this city, the now it is going alone and is independent. He will go thence to Rock Island to be present at an all day rally in the new church where he is to make addresses morning and evening and during the day at the Sunday school rally. From Rock Island he is to go to Chicago for a conference with superintendents of the Christian church Sunday schools of the great city.

Mr. McGinnis at present resides on East Dunlap street, but he expects to remove to the East North street property as soon as some improvements are made.

ROOSEVELT DUE BACK TOMORROW

New York, Mar. 24.—Col. Roosevelt is due tomorrow, and the progressive leaders are in town ready to welcome him and give him all the latest political news. The Colonel has enjoyed a triumphal tour in the West Indies, and word has preceded his arrival that he is in the pink of health and ready for action.

NOTICE R. & S. MASTERS.

Jacksonville council, No. 5, R. & S. Masters, will hold an assembly Friday evening at 7:30 o'clock. Work and refreshments. Visiting companions welcome.

FIRST EXECUTION IN GUAM.

Washington, D. C., Mar. 24.—Word regarding the first execution in Guam under American occupation has come to a retired officer in Washington in a letter from a friend in the marine brigade. A young Filipino who several years ago was brought to Sumay, the cable station, by a captain in the marine brigade, from Manila and has since served succeeding officers, fell in love with the wife of a Japanese merchant. Failing to win her, he sneaked a revolver from the captain by whom he was employed and shot the woman and himself. She died and he recovered. The letter concludes, "The gallows is erected, the coffin built and the execution takes place in the morning."

Charles R. Gibson and A. L. Hawker were in the city Thursday from the neighborhood of Joy Prairie.

STATE COMMISSION ORDERS UTILITY COMPANY TO MAKE SHARP REDUCTIONS

**GAS MUST BE SOLD AT 95 CENTS PER 1,000 AND
ELECTRIC CURRENT AT 10 CENTS**

Much Lower Electric Rates for Business Houses Where Minimum Will Reach 3 Cents per K. W.—Additional Schedules for Signs, Window Lighting and Power—Order Effective April 1st.—Company Has Right of Appeal for Thirty Days

The state utility commission Thursday handed down an informal order fixing the gas rate in Jacksonville at 95 cents and the electric current rate at 10 cents. The price now being charged for gas is \$1.15 per thousand feet and for electricity 13 1-2 cents per kilowatt hour. Still lower rates were fixed for consumers who use more than 15 kilowatt hours per month of electric current. This rate applies to residence lighting and another schedule fixes prices for commercial lighting available for stores, offices, etc. The net price for consumption of from 50 to 150 kilowatt hours ranges from 8 cents to 3 cents. Still another electricity schedule fixes the rates to be charged for current used for signs, window displays, fans and power. It is estimated that the saving to the people of Jacksonville by the reduction in rates will be at least \$20,000 per annum. Most persons who have electricity in their homes use enough to give them a 7 cent rate.

Judge Thompson Read Finding.

The finding of the commission was read by Judge O. P. Thompson. The company was represented by H. E. Chubbuck, H. I. Green, James A. Knowlton and W. B. Miser and J. A. Bellatti, the city by A. D. Stevens, attorney for the petitioners, Mayor Rodgers, Dr. Bowe and Dr. Baker. The rates were fixed by the commission in accordance with a stipulation filed by the parties to the case Feb. 11, which asked that the commission immediately proceed to fix the rates without entering a formal order as is customary in such cases. After considerable discussion the commission granted 30 days for the company to signify its willingness to accept or reject the rates as fixed, but the commission stated plainly that in the event that the company rejected the rates, the same rates will be incorporated in a formal order. Mr. Stevenson on behalf of the petitioners signified his willingness to accept his rates. If the company accepts them they will become effective as of April 1 and in fact, the company agreed that if a formal order becomes necessary the rates still shall be effective as of the same date.

Company Silent on Decision.

Following the reading of the commission's finding Mr. Stevens as attorney for the petitioners, stated that the rates fixed were acceptable and Mayor H. J. Rodgers declared that as a representative of the city he was satisfied with the finding. The rates will become effective April 1, whether or not accepted by the company. If the company determines not to accept the finding then a formal order will be entered by the commission and the company will have the right of appeal to the Sangamon county circuit court.

W. B. Miser, superintendent of the utility company, remained in Springfield last night and in response to a request from the Journal for a statement as to the company's views of the finding and possibility of appeal, declined to make a statement. His only reply other than to say that the company officials were not ready yet with any announcement was to say, "I didn't get what I expected and didn't expect I would."

Appeal Not Believed Likely.

While Mr. Miser and his associates are evidently not yet ready to talk, various citizens who have followed the rate case do not think it likely that an appeal will be taken. No one can question the local powers of the commission in fixing rates, and they have gone into the present inquiry with such care and thoroughness that it is believed that they are fully ready to defend their actions against any court inquiry. Further, an appeal to the circuit court would mean long and expensive litigation.

One important feature of the decision at this time is that it places the company in position to go ahead with public improvements. When objections were filed to the proposed paving of South Main, East State and West State streets the company declared that the objections were based upon the uncertainty as to the commission finding and that when it became known what the commission would do, that the company would then be in position to take care of its proper share of the proposed expenditure. The text of the commission finding, outlined the rates as follows. As a matter of interest and for future reference citizens should file away a copy of the finding.

JACKSONVILLE RAILWAY AND LIGHT COMPANY—CASE NO. 2698. FINDINGS ON GAS RATES.
The Commission, after taking into consideration the fair value of the property used and useful in giving gas service in the City of Jacksonville and contiguous territory, is of the opinion that the company can earn a fair return on the fair value thus found, plus an annual sum sufficient to take care of accruing depreciation, after paying all reasonable production and operating charges, if the rate for gas is fixed at \$1.05 per thousand cubic feet gross, with a deduction for prompt payment of 10c, making a net rate of 95c per thousand cubic feet of gas.

This rate has been calculated on the basis of a uniform schedule applicable to all consumers.

The Commission will allow the company to present a schedule of rates based upon the above findings, but calculated on a variable rate of charge for gas according to the amount used by certain classes of consumers. Such a schedule is commonly classified as a "block" rate, and something of that kind is now in effect in Jacksonville, with various changes of prices occurring under the present schedule at equal steps of 4,000 feet of gas used per month per meter. If the respondent company wishes to present such a block rate for the consideration of the Commission, said schedule must first be approved by complainant consumers and by authorized representatives of the City.

In the above uniform rate of 95c net, the Commission has allowed an annual sum for depreciation equivalent to 7 1-2c per thousand cubic feet of gas sold, and in writing an order in this case will specify that the amount thus ascertained must be set aside annually out of gross earnings to meet accruing depreciation.

Discount.

A discount of ten cents (10c) per thousand cubic feet of gas shall be allowed upon all accounts paid in full within ten (10) days after the date of the statement. Statements shall be rendered monthly, on a day reasonably close to the first of the month. The date of the statement shall be the day of the month upon which statements are mailed (or otherwise distributed) to the consumers of Jacksonville.

A minimum charge of twenty-five cents (25c) per month per meter shall be assessed monthly to each consumer who fails to use at least two hundred and fifty (250) cubic feet of gas per meter per month.

Quality.

The quality of gas furnished in Jacksonville shall accord with the "Standards for Gas Service" established heretofore (or which may hereafter be established) by this Commission, except that the heat content shall be not less than six hundred (600) British thermal units per cubic foot of gas.

THOMAS GOVAN FOUND DEAD IN
ST. LOUIS THURSDAY AFTERNOON

Relatives of Colored Man Have Not Received Details of His Sudden Death.

Thomas Govan, a well known colored man of this city, died in St. Louis some time Wednesday. Word was received here Thursday that the body of a man was at Hughes' undertaking establishment believed to be Govan from letters and papers found in his pockets. Thursday afternoon John Sallee and Eddie Smith went to St. Louis to identify the body. A message was received by Govan's wife from Smith Thursday night stating the body was that of Govan. No particulars were available as to the manner of death. Govan for a number of years operated the hamburger stand at the corner of West Lafayette avenue and North West street. Besides his wife the only other relative is an aunt living in St. Louis.

TWENTY NINE POSITIONS ABOLISHED AT STATE SCHOOL FOR THE DEAF

Official Notices Were Received Here Thursday To Become Effective April 1st—Order Cuts Out Maintenance for Teachers—Rumor Is School Year May Be Month Shorter.

Superintendent Gillett of the School for the Deaf received a list yesterday of those employees whose resignations have been asked for by the board of administration, the same to become effective April 1. There are twenty-nine positions in all which are abolished as an measure. (Before the notice of abolishment was received there were four vacancies caused by the resignation of three housemothers and one nurse. The appointees whom the order affects are the following:

Head farmer—George Hacker.
Repairmen—M. L. Denny, Adam Miller, Perry Cowart, all of the engineering department.
Laborer and clerk—Robert Bazel.

Kitchen assistant—Joseph Foran.
Laborer—Robert Burdick.
Laborer in domestic department—Edward Denve.
Janitors—Amos Straight, Levi Shackel.

Domestics—Ada Brown, Cecil Blakeley, Jesse Kankersley, Mary Tankersley, Margaret Tankersley, Rae Grogan, Mae Andell, Margaret McGuire, Helen Keltz, Constance Wilding, Dixie Brown.

Housefather—Frank Mather.
Housemothers—Mrs. Sarah Depew, Miss May Patrick.
Visitors' attendant—Mrs. Isabel Mather.

Attendants—Mrs. Maude Moore, Miss Wilma Emerick.
Seamstress—Ann Sullivan.
Teachers and Maintenance.

A letter was received by Supt. Gillett of the State School for the Deaf in the following language:

"At a meeting of the board held on the 24th inst., it was resolved that you be directed on and after April 1, 1916, to cut off \$12 cash in lieu of maintenance, and to discontinue allowing maintenance to teachers of your school."

Supt. Gillett did not care to make any comment on this letter but in view of existing conditions the meaning is not clear. There are only nine teachers altogether in the schools for the Deaf and Blind who are living within the building, and none of the contracts with the other teachers have any clause with reference to maintenance. While the report could not be verified, it was said yesterday that the board plans for a shorter school year at the school for the Deaf and that one month's time will be cut from the school calendar.

ALBERT PIKE KILLED BY TRAIN AT KEOKUK THURSDAY

Former Jacksonville Resident Met Death on the Rails—Details of Accident Not Yet Received.

Albert Pike a former resident of Jacksonville was killed by a train at Keokuk, Iowa, Thursday. No particulars were given. Pike was born in Sangamon county but was a resident of this city for a number of years. He was 29 years of age. Since going to Keokuk he has been in the employ of the Mississippi River Power company. He is survived by his wife and mother, who reside on Doolin avenue in this city. Two brothers, W. A. Pike of Doolin avenue and James Pike of Buffalo avenue South Jacksonville also survive. The funeral will be held and interment made in Keokuk. James Pike expects to attend the funeral.

BLUE POND DRAINAGE CASE WENT TO JURY YESTERDAY

The taking of testimony and the presentation of arguments in the Blue Pond drainage case was completed Thursday and before the adjournment of court Judge Thomson instructed the jury. The jury took the case about 4:30 o'clock and elected John Votsmeier of Franklin foreman. Arrangements were made to visit the district today and the jury expects to leave on the Wabash at 7:15 o'clock. It is thought that the work of inspecting the property affected will be finished today and Judge Thomson hopes to convene court Saturday and receive the verdict.

BASKETBALL SEASON AT FRANKLIN CLOSED WITH GAME THURSDAY

Local Y. M. C. A. Team Won with Score of 23 to 16—Spirited Contest and Referee Had Busy Time.

The last game of the basketball season in Franklin was played Thursday evening between Franklin and Jacksonville. It was the third time the teams had met and each had a game to their credit. The first game was played between Franklin and the Y. M. C. A. team here and the locals won. Franklin then tried to get a game with the Y. M. C. A. at Franklin. Some days ago a team composed of Fred Stewart and several other well known players went down and were defeated. Not satisfied another game was booked and this time the locals brought home the bacon by a score of 23 to 16. The game was extremely rough and a number of penalties were called. The game was featured by the basket shooting of Frye and the back guard play of Frisbee for the Jacksonville team.

DRAWING AND HARROWING.

While country roads for the most part now are in quite good condition because of the favorable weather and the dragging done, there are other portions which are so spungy that autoists have difficulty in making progress. A plan which is now being followed to some advantage is to use a harrow on roadways in this condition before the dragging process. This has the effect of smoothing the surface down to a hard level which makes travel much easier.

TO DETERMINE HOW PROPORTION OF PUPILS TO TEACHERS COMPARE

SPRINGFIELD, Ill., March 23.—An investigation has been started by Dr. George Zeller, alienist of the state board of administration, it was learned today, to determine how the proportion of pupils to teachers at the Jacksonville Schools for the Deaf and Blind compare with similar institutions in other parts of the country.

Thus far no teachers have been discharged from these institutions as a part of the retrenchment plan, according to employees of the board, but the size of the teaching staffs of the institutions soon is to be considered carefully at a meeting of the board.

The recent decision of the board to make all teachers pay for their maintenance will result in a saving of about \$6,000 annually for the two institutions.

BIG ACTS AT GRAND.

Three big acts opened at the Grand Thursday afternoon for a three days' engagement. The performers were greeted with large audiences at both afternoon and evening performances. The show opened with the Melba, a study of electric and the Five Alarcons appeared in a musical act. They are Spanish and play various instruments and do Spanish dances. The show closed with Johnny Small and the Small Sisters in an excellent singing, talking and dancing act. At the second evening performance the Smalls were compelled to cut the last number owing to batting breaking on their special drop.
